

OVERVIEW

GIB's MRP Procurement module is seamlessly rendered inside SAP, allowing users to make more informed and timely supply chain decisions. All relevant information is presented in a clear, customized way which empowers users to be more efficient and effective in their buying, planning, and scheduling tasks.

As a solution for both cross-company and inter-company transactions, GIB clients have shown an average time savings of 40%, allowing them to scale their business without increasing head count.

FEATURES

25+ SAP transactions consolidated into a single dashboard

Easy simulation of potential supply and demand changes

Proactive alerts direct focus & attention on immediate needs and potential improvements

Flexible layouts accommodate supply chain users across multiple roles

INTELLIGENT SCM RESOURCE PLANNING

BENEFITS

Reduced time and effort to make more informed supply chain decisions

More efficient materials management enables top line growth without new headcount

Lower material costs through visibility across the internal supply chain

Naturally integrated within SAP for rapid delivery and ease of use

SUPPORTIVE TOOLS

An Intuitive Requirements View. Examine all requirements for future periods, including planned orders, purchase requisitions, forecasts, and more at a glance. Easily toggle between days, weeks or months and view one material or many. Ad-hoc simulations can be utilized to understand the impact of supply and demand changes.

Flexible Data Views. GIB's MRP Procurement module is fully customizable to meet the specific needs of all users involved in day-to-day supply chain operations. Role and user based views allow flexibility over the level of information presented to the user. Graphics allow further personalization and enhance each user's experience.

Complete Network Visualization. Cross-plant views enable users to understand the full network situation from a single screen. Key inventory figures, which may vary considerably across plants, can be retrieved and controlled for each location.

MRP PROCUREMENT

**Make informed,
efficient decisions.**
